MEMORANDUM FOR THE RECORD

SUBJECT: Telecon with Mr. Jim Smith, 6 June 1983

1. The writer called Mr. Jim Smith of Senator Tower's office to respond to a question posed to the Legislative Liaison Division, Office of External Affairs. Mr. Smith stated that the architectural/engineering firm CRS/Houston had contacted Senator Tower's office to express continued interest in the contract to design the proposed new building for the CIA Headquarters.

2. Mr. Smith was advised that the contract had been let to Smith, Hinchman and Grylls of Detroit in late December 1982. He was told that we were now approaching the 30 percent design completion and would soon be making a formal submission to the National Capital Planning Commission.

3. He asked for the writer's opinion as to why CRS was pursuing the issue under these circumstances. The response was a surmise that CRS may have been watching the trade papers for the traditional advertisement of the design winner, a tradition the Agency did not follow.

4. He then asked if the current contractor's performance was satisfactory. He was advised that the performance was more than acceptable both in terms of schedule and quality of work.
